

Vision and Mission

VISION

The ICCON vision is “to recreate situations around us that will impact positively on the nation, while providing professional protection to our members.”

MISSION

1. To put in place regulatory framework/strategies for the practice of the Chemistry profession
2. To define the roles and responsibilities of the professional Chemists and their place in the society
3. To bring to light how Nigeria's economy can be recreated positively through Chemistry.

MISSION

- To put in place regulatory framework/strategies for the practice of the Chemistry profession
- To define the roles and responsibilities of the professional Chemists and their place in the society
- To bring to light how Nigeria's economy can be recreated positively through Chemistry.
